

Ensure your new Doctors are ready from the word “GO!”

Managing a new intake of Junior Doctors is a necessary administrative headache. You need to ensure that they are fully immersed in your Trust’s culture, and that they fully understand your essential procedures and key Trust policies.

Premier IT has developed a Junior Doctors Induction e-Learning programme that fulfils all of these requirements, and can be completed before your Doctors even commence their employment!

Delivered via a Learning Management System (LMS), the programme will allow you to manage and administer the Induction process of your new Junior Doctors intake as efficiently as possible. You can pick and choose the modules that you require. A typical Induction programme could include up to 20 modules with topics such as Prescribing, Major Incident, Risk Management, Infection Control and Consent.

Your Doctors can...

- **complete** the Induction much faster than with an Instructor-led format
- **access** the programme via the Internet, 24/7
- **exit and return** to remaining modules at their convenience
- **refresh** their knowledge at any time after the initial Induction

...and for your Trust, it is:

- **resource-efficient** – no travel costs and no classrooms
- **re-usable** for future Inductions
- **easily updated** to reflect changes in policy and legislation
- **ready to roll out NOW**, in time for your next upcoming intake of Junior Doctors

Why Premier IT?

Premier IT has proven experience in delivering high quality customised e-Learning solutions to the NHS. We have a list of available subject matter that can be integrated into your Induction programme, and customised to align with your Trust’s branding and culture. Our subject matter experts will also work with you to design and develop additional modules and topics, to meet the specific requirements of your Trust.

By utilising our Induction e-Learning, you can be sure of a consistent transfer of quality information to all new Junior Doctors, so that they can be ready right from the word “GO!”

Integrate into ANY LMS...

Our e-Learning modules can be implemented easily onto any existing Learning Management System (LMS), including the National LMS (NLMS). Alternatively we can provide you with your own fully developed and bespoke LMS, as we have done with many of our clients including Guy’s and Thomas’ NHS Foundation Trust.

Why use our LMS?

With the Premier IT LMS your Trust will be able to:

- track, measure and report progress of employees at every stage of development
- ensure all staff are fully compliant with your Trust’s statutory and mandatory policies

In addition, it allows your employees to:

- access e-Learning anywhere, anytime... even before they begin employment
- receive automated messages supporting them throughout their learning

Available topics include:

- Blood Sampling
- Blood Transfusions
- Cerner Millennium
- Consent
- Cultural Policy
- Deaths
- Documentation
- ECG
- Equality and Diversity
- Equipment
- Fire Safety
- Hazardous Substances
- Health and Safety
- Incident Reporting
- Infection Control
- Junior Doctors Induction
- Major Incidents
- Manual Lifting and Handling
- Prescribing
- Risk Management and Assessment
- Safeguarding Children
- Safeguarding Vulnerable Adults
- Slips, Trips and Falls

Want to know more...

Our extensive range of NHS e-Learning services are currently being deployed and used at many NHS Trusts across the UK.
