

Ensure your new Doctors are ready for Cerner Millennium, from the word “GO!”

Managing a new intake of Junior Doctors is a necessary administrative headache. You need to ensure that they are fully immersed in your Trust’s culture, and that they possess a good working knowledge of Cerner Millennium.

Premier IT has developed a Cerner Millennium Induction e-Learning programme that fulfils all of these requirements, and can be completed before your Doctors even commence their employment!

Your Doctors can...

- **complete** the Induction much faster than with an Instructor-led format
- **access** the programme via the Internet, 24/7
- **exit and return** to remaining modules at their convenience
- **refresh** their knowledge at any time after the initial Induction

Why Premier IT?

Premier IT has unrivalled experience in delivering high quality, customised e-Learning solutions to the NHS.

As an NHS CRS training specialist, our capabilities extend beyond e-Learning development and design. We have a team of Cerner training specialists and subject matter experts, combined with a proven track record of delivering Cerner training and floor-walking solutions to NHS Trusts across the UK.

This invaluable experience shines through in our work, and helps us to ensure that any Cerner e-Learning produced is relevant and fit for purpose for your Trust.

We have a list of Cerner modules that can be created and integrated into your Cerner Millennium programme, and customised to align with your Trust’s processes. Our subject matter experts will work with you to design and develop additional modules and topics, to meet the specific staff training requirements of your Trust.

Integrate into ANY LMS...

Our e-Learning can be implemented easily onto any existing Learning Management System (LMS), including the National LMS (NLMS). Alternatively we can provide you with your own fully developed and bespoke LMS, as we have done with many of our clients including St George’s Healthcare NHS Trust.

Why use our LMS?

With the Premier IT LMS your Trust will be able to:

- track, measure and report progress of employees at every stage of development
- ensure all staff are fully compliant with your Trust’s statutory and mandatory policies

In addition, it allows your employees to:

- access e-Learning anywhere, anytime... even before they begin employment
- receive automated messages supporting them throughout their learning

...and for your Trust, it is:

- **resource-efficient** – no travel costs and no classrooms
- **easy to track** completion rates and measure and report on learning outcomes for cost-benefit analysis
- **equipped with a skills validation facility** - you can gain an accurate view of the skills levels of your new Doctors
- **re-usable** for future Inductions
- **easily updated** to reflect system changes and updates
- **easy to incorporate** Trust-specific processes into the e-Learning

Other e-Learning modules include:

- Blood Sampling
- Blood Transfusions
- Consent
- Cultural Policy
- Deaths
- Documentation
- ECG
- Equality and Diversity
- Equipment
- Fire Safety
- Hazardous Substances
- Health and Safety
- Incident Reporting
- Infection Control
- Junior Doctors Induction
- Major Incidents
- Manual Lifting and Handling
- Prescribing
- Risk Management and Assessment
- Safeguarding Children
- Safeguarding Vulnerable Adults
- Slips, Trips and Falls

Want to know more...

Our Cerner Millennium e-Learning services are currently being deployed and used at St George’s Healthcare NHS Trust.
